

# PRPOWER

Performance and Reliability

---

## Company Profile

*Power, Lighting, Water and  
Environmental Equipment Solutions*

---

[www.prpower.com](http://www.prpower.com)

*PR Power is an Australian owned and operated company, specialising in the supply for sale and rental of a range of quality equipment Australia wide.*

### About us

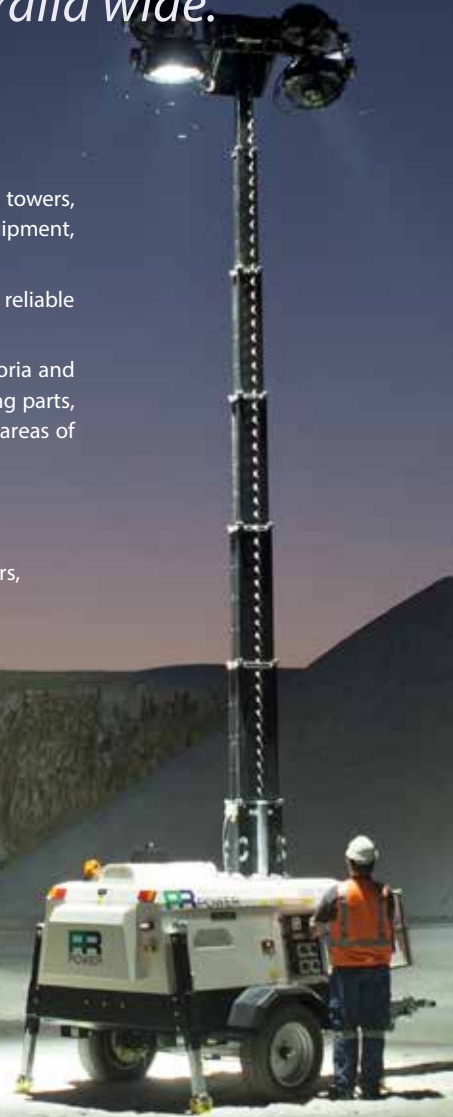

The company provides access to premium, reliable and competitively priced mobile lighting towers, diesel generators, Siltbuster water solutions, mobile truck wheel wash and dust control equipment, supplying brands that are internationally recognised.

The company's range of equipment has been extensively researched and tested to ensure quality, reliable products are available for use in a wide range of applications Australia wide.

Established in 2008, the company has expanded from Western Australia into Queensland, Victoria and New South Wales. PR Power offers a wide range of equipment for both sale and rental supplying parts, service and expert technical support. Our personnel are highly trained and experienced in the areas of power generation, mobile lighting, water and environmental equipment solutions.

### Our vision

To be the benchmark company in the sales and rental of power generation, mobile lighting towers, water and environmental equipment solutions nationally and internationally.

### Aftermarket & Technical Support

From installation to service and parts, PR Power ensures you receive prompt and professional support from experienced and knowledgeable staff for the full range of equipment available through our Australia wide branch network.

PR Power is the exclusive Australian distributor for Siltbuster equipment (including settlement units, oil water separators, chemical dosing and pH Correction units) and Olympian diesel generators. The company is also a member of the Water Industry Operators Association of Australia.

The Olympian range of generating sets are supported nationally by the Caterpillar dealer network ensuring competitively priced and genuine quality parts are available for prompt and speedy delivery anywhere in Australia.

In addition we support world leading engine and alternator brands in Perkins, Cummins, CAT, Kubota, Stamford and Leroy Somer with genuine, quality parts and extensive technical expertise and knowledge.

## Our Equipment

PR Power continually seeks to source and supply quality manufactured, reliable and competitively priced equipment to meet the demands of its customers, for a range of industries including mining, power generation, civil works, agriculture, events, rental and industrial. Our wide range of equipment is available for sale and rental Australia wide:

### Diesel Generators

- Ranging from 8kVA up to 2200kVA
- Powered by Perkins, Cummins, Kubota & CAT diesel engines
- Open, sound attenuated, skid and trailer mounted
- Prime and standby
- Installation, commissioning, parts and service support
- Ideal for use in diverse sectors including mining, medical, data centres, finance, telecommunications, healthcare, manufacturing, rental, construction, government / utilities, retail and transport industries

### Mobile Lighting Towers

- Metal Halide, LED, HPS and Balloon Lighting options
- Up to 1,260,000 lumens of light output/36,000m<sup>2</sup> area coverage
